Sewing Directions:

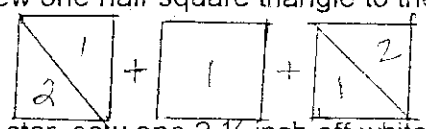

Take one 2 7/8 inch yellow square and one 2 7/8 inch off white square, right sides together, draw a pencil line diagonally and stitch a seam ¼ inch on either side of pencil line. Repeat on remaining 2 7/8 inch squares. Cut along the pencil line. Now you have four half square triangle blocks.

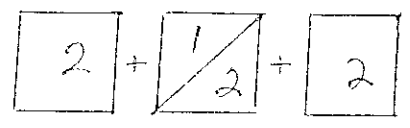

To sew the first strip of the star take one 2-½ inch off white square and sew it to one half square triangle piece. On the right side of the half square triangle, sew another 2 ½ inch off white square.

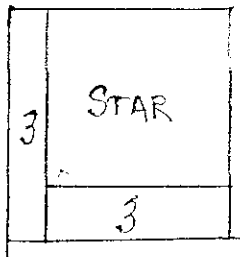

To sew the second strip of the star, sew one half square triangle piece to one yellow 2 ½ inch square and then sew one half square triangle to the other side.

For the third strip of the star, sew one 2-½ inch off white square to one half square triangle piece and then sew one 2 1/2 inch off white square.

Now sew the first strip to the bottom of the second strip and then sew the third strip to the top of the second strip. See below.

Sew the rectangles to the Star square as shown in the diagram below.
