

# The 30<sup>th</sup> anniversary flower is the Lily...so our **April Block is the Lily of the Field**

## Cutting:

White Background Fabric:

Seven 2 ½" squares for half square triangles

Two 4" x 5.5" rectangles for leaf units (layer these wrong sides together, cut diagonally.

You will need only two of these triangles, 1 unit and 1 reverse) \*\*\*

One 2" square (top right corner)

One 5" square cut diagonally for stem background

Two 3 ½" x 5" rectangles (top left and bottom right background)

Floral Print

One 6 ½" square for main flower block

Four 2 ½" squares for half square triangles

Green Leaf and Stem Fabric

Three 2 ½" squares for half square triangles

One 1" x 7" strip for stem

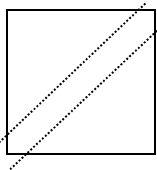

Two 4" x 5 ½" rectangles for leaf units (layer these wrong sides together, cut diagonally.

You will need only two of these triangles, 1 unit and 1 reverse) \*\*\*

\*\*\*if your fabric is solid or batik with no right or wrong side, you need only one rectangle cut diagonally. You can flip one of the triangles over and use the "wrong side" as the reverse.

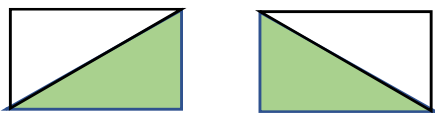

## Use the 2 ½" squares to make half square triangles

Use a ruler to mark ¼" from each side of the center diagonal on the wrong side of the background fabric (or mark the center diagonal and sew ¼" away on each side of your marked line)

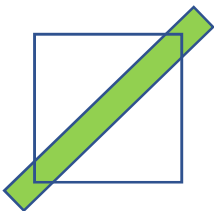

Layer each square of background fabric with a square of flower or leaf fabric, right sides together. Sew on marked lines. Cut on center diagonal between stitched lines. Press seam toward the darker fabric. Square up to make 8 white/floral half square triangles and 6 white/green 2" cut size (1 ½" finished size) half square triangle units.

**Leaves:** Stitch the green and white triangles made from the 4"x 5.5" rectangles to make leaves as shown

**Stem:** Sew white triangles for stem to each side of the 1" x 7" stem piece.

Trim the corners to make a 5" square

Use illustration to layout your block

Block should be 12.5 inches (12" finished block)

## Assembly layout
